Subject: Request for Review of Draft Final RFA Report
Pier 91 RCRA Facility

Dear Sir:

This letter is to followup a telephone discussion had between you and Pacific Northern Oil's environmental consultant, Michael Torpy, on February 11, 1993.

Pacific Northern Oil is a subtenant of a terminal facility at Terminal 90-91, Seattle, Washington. PNO subleases a portion of tankage from Chemical Processors, Inc. which has a master lease with the Port of Seattle.

In the course of your discussion with Mike Torpy, you advised that EPA was in the final stage of a Draft Final RFA Report which addresses environmental issues affecting Chempro, Port of Seattle, and adjoining property owners. Because any corrective action to be implemented in connection with the RFA could impact PNO's responsibility for environmental issues and also its use of the facility, we are requesting that we be provided a copy of the draft RFA for our review and comment.

PNO has reviewed the Section 3008 and 3013 orders issued by EPA; has identified incorrect information about PNO's

USEPA RCRA

3012521

activities at the site; and would like to correct the public record. Please advise me how this is to be done.

Please telephone the undersigned at the number noted above to discuss our request.

Sincerely,

A handwritten signature in blue ink, reading "D. A. Waldschmidt". The signature is written in a cursive style with a prominent initial "D" and a stylized "A".

David A. Waldschmidt
